

# Journeyman Glazier

AGC Glass in Regina, Sask. is looking for a journeyman glazier who is experienced in working with commercial glazing systems (curtainwall, storefront): from layout and fabrication to installation. The ideal candidate will be able to manage a small crew, to work independently and efficiently and to communicate daily with shop and site personnel involved in the same projects. Consistent attention to detail and quality of work is a must. The ability to learn new things and be hands on is also a must. A driver's licence is required. Company vehicles are used for transporting supplies to and from job site. You will be hard-working and team oriented.

We offer competitive wages, incentive bonuses, company paid pension, health & dental benefits and three weeks vacation pay. AGC Regina is a union shop but we hire permanent, full time glaziers and installers.

AGC Flat Glass is part of Asahi Glass with business operations in North America, Japan, Asia and Europe. [www.agc.com](http://www.agc.com)

Beautiful and strong, architectural products from AGC Flat Glass can be found in thousands of commercial buildings across North America-including office buildings, schools, hospitals, shopping malls, and airports. AGC's broad, diverse family of architectural solutions meets the highest aesthetic standards, while also offering extraordinary performance-whether customer concerns include light transmission, solar control, wind resistance, safety, security, or year-round energy efficiency.
